2)

CONTENTS

I. THE BEHAVIOR OF INDIVIDUAL PARTICLES 1

A. The Particle 1

B. Quantum Mechanics 2

C. Energy States, Energy Levels, and Degeneracy 7

II. GROUP PARTICLE BEHAVIOR 9

A. Macrostate Distributions 9

B. Microstates 14

Boltzon Macrostate Probabilities 15

Indistinguishable Particle Macrostate Probabilities 17

C. Properties 21

III. EQUILIBRIUM 24

A. Extrapolation to Large Systems 24

B. Approach to Equilibrium 28

SUMMARY QUESTIONS 32

APPENDIX IIIA-A - THE SIGNIFICANCE OF THE PROBABILITY DISTRIBUTION 33
